Subject: State of California Model Agreement 2017 Update

Purpose

This 2017 Update (i) introduces the updated California Model Agreement v2.0; (ii) answers common questions surrounding use of the CMA; and (iii) explains the process for exempting a project from use of the CMA.

Background

On February 1, 2016, [UCOP Research Policy Analysis and Coordination \(RPAC\)](#) released [RPAC Memo 16-01](#) which described the development of the California Model Agreement (CMA) by and between the University of California (UC), the California State University (CSU) system, and the state Department of General Services (DGS), (collectively “the Parties”), as required under California Education Code (Cal Ed. Code).¹ In addition, Memo 16-01 described a new business model of working with state agencies, introduced the CMA (comprising the agreement template/exhibits and the University Terms and Conditions (UTC)), and provided guidance on an indirect cost rate schedule for F&A recovery for state-funded projects.

California Model Agreement v2.0

The [Memorandum of Understanding \(MOU\) signed by the Parties](#) outlines when and how the CMA will be used, provides alternate provisions for patent rights (and an alternate liability provision for CSU auxiliaries), and specifies that the Parties will collect user feedback from their respective campuses/departments and meet annually to improve the templates. User feedback and the Parties’ collaborations via regular phone calls and meetings over the last twenty months resulted in version 2.0 of the CMA which has been recently posted at DGS’ website and at the [UKnowledgeShare](#) site. This latest version of the CMA is available immediately for use. We urge your participation in phasing out the original version by October 1, 2017, after which, only the CMA v2.0 should be accepted. A redline comparing the two documents is included in this memo so that you can easily identify the changes between the versions.²

¹ At §67325 et seq.

² Changes to the STD face page may assist in easy identification of CMA template v1.0 vs. 2.0. Also of note, the suffix “-116” was replaced with “817” to denote the August 2017 version of the UTC.

Common Questions

During the first year and a half of CMA implementation, the following questions were prevalent and are answered here.

Question #1: The CMA is for contracts, not grants, right?

Answer: Cal Ed. Code §67325 defines “contract” (for purposes of the Cal Ed Code Article), as “a research, training, or service agreement between the state and the [UC] or the [CSU], or a grant from the state to the [UC] or the [CSU] for research, training, or service.” The Cal Ed. Code further states that the CMA “shall be used in contracts entered into between the [UC] or the [CSU] and the state...” Cal Ed Code §67327(b). Therefore, the CMA is intended to be applicable for both contracts and grants.

Question #2: Do business contracts offices have to use the CMA?

Answer: Depending on individual campus work distribution and signature delegations, research, training, or service agreements could be processed in a sponsored programs office or a procurement, business contracts, or health system contracts office. The Cal Ed. Code proscribes that the CMA will be used for research, training and service agreements, regardless of where on campus such agreements are executed. If a campus office requires training on use of the CMA, please contact RPAC.

Question #3: Should the CMA be used for Material Transfer Agreements (MTAs) and/or Data Use Agreements (DUAs)?

Answer: The CMA is for research, training and service agreements, but the Cal Ed. Code does not specify whether MTAs and DUAs are included in the term “research agreements.” In discussions with the state DGS, the CSU Chancellors Office and UCOP-RPAC, there was general consensus that the California Ed. Code 67325 does not clearly require use of the CMA for data and material transferences that are independent of and not part of a state-funded research, training or service agreement.

Question #4: Does the Cal Ed. Code require the State to pay 25% indirect cost rate on all projects?

Answer: Neither the Cal Ed. Code nor the CMA mandate adherence to an indirect cost rate structure.³ While the Cal Ed. Code states that, to the extent feasible, administrative overhead and indirect costs should be included in the CMA⁴, the Parties were unable to come to agreement on this topic.

Independent of the CMA, UC and CSU have implemented [an indirect cost rate structure for state-funded projects](#) with a floor of 25% MTDC escalating over time to cap at 40% MTDC (for on-campus projects). This “UC Rate” for state agreements is based on an analysis of UC’s actual costs for performing work for the state. Even with indirect cost recovery in accordance with this structure, UC will continue to share in the costs of projects performed for state agencies. In 2012, UC and CSU proposed the

³ The CMA mandates that indirect costs be paid in accordance with an individual project’s budget (Exhibit B).

⁴ Cal Ed. Code §67327(a)(11)

current IDC rate structure to the state and once it was clear that the indirect cost rate would not become a part of the model agreement⁵, both systems implemented the rate structure in 2016⁶.

An appropriate F&A rate agreement, rather than the UC Rate, should be applied when a State of California agency is acting as a pass-through entity of a subaward to UC. Per Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards at 2 CFR 200.331, a pass-through entity, a non-Federal entity that provides a subaward to a subrecipient to carry out part of a federal project, is not authorized to make unilateral restrictions of indirect cost recovery.

Exemptions from use of the CMA

The Cal Ed. Code states that DGS, UC and CSU “may determine those *types of contracts* for which the use of the model contract would be inappropriate or inadequate.” (See Cal Ed. Code at §67327(d); emphasis added.) As noted in UCOP Memo 16-01, the Parties initially agreed to exempt awards from CIRM, California Marketing Boards, and the California Energy Commission EPIC program. Exemption of other contracts must follow a specific process as follows:

If the exemption request originates from a UC campus⁷: The campus sends an exemption request to RPAC explaining why the CMA is inappropriate or inadequate for the project. RPAC will review the request and, if sound, will forward it to CSU and DGS for review and approval.

Conversely, if the exemption request originates from a state agency: The agency sends an exemption request to DGS explaining why the CMA is inappropriate or inadequate for the project. DGS reviews the request and, if sound, will forward it to CSU and UCOP-RPAC for review and approval.

An exemption request can only be approved by concurrence of all three Parties⁸. The Parties have agreed that a state agency’s mere preference for non-UTC language is insufficient grounds for exempting awards under Cal Ed. Code §67327(d).

Exemption vs. Exhibit G

While CMA exemption may be appropriate when almost all terms of the UTC are inadequate or inappropriate for an individual project, the Cal Ed. Code authorizes, and the CMA provides, a flexible alternative for projects where only one or more (but not substantially all) UTC terms are inappropriate or inadequate.⁹ Exhibit G was developed as a placeholder for terms that alter, wholly overwrite, or add to the UTC. Exhibit G should be used sparingly, and should not be used to replace major UTC provisions (i.e., Invoicing & Payment, Liability, Dispute Resolution) based merely on agency language preferences. Such practice leads backwards to agency-by-

⁵ There was no mutual agreement between the state and the university systems to adopt the rate structure for state-funded awards. The rate is imposed unilaterally by the university systems. State agencies can determine, on a project-by-project basis, if they can fund the direct and indirect costs of a project.

⁶ Although the “UC Rate” for state projects was implemented at the same time as the CMA, they are not related.

⁷ The process is similar for CSU requests.

⁸ UC concurrence for an exemption must come from UCOP-RPAC.

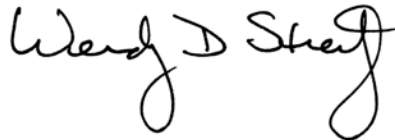

⁹ The standard provisions of the CMA “shall be used in contracts entered into between the [UC] or the [CSU] and the state, unless both contracting parties mutually determine that a specified standard contract provision is inappropriate or inadequate for a specified contract.” At Cal. Ed. Code §67327(b).

agency language negotiations and defeats the resource-saving objectives of the California Education Code.

While an agency-specific Exhibit G is ill-advised, RPAC has identified reasonable language compromises that may reach across all contracts for a given agency.¹⁰ RPAC continues to collaborate with agencies that have identified a need for an agency-specific Exhibit G and will house any approved agency-specific Exhibit G in REMS and in the publically accessible page www.UKnowledgeShare.com.

Memorandum of Understanding Revised May 15, 2017, Amendment 01 (*intentionally in redline format*), including Model Agreement template (comparison against v1.0) and University Terms and Conditions (UTC-817) (comparison against UTC-116)

Model Agreement Memorandum of Understanding
Between
The Department of General Services
and
The University of California
and
The California State University

Revised May 15, 2017 – MOU #AB20-2016, Amendment 01

WHEREAS, California Education Code section 67325 finds that for purposes of this article, "contract" means a research, training, or service agreement between the state and the University of California or the California State University, or a grant from the state to the University of California or the California State University for research, training, or service; and

WHEREAS, California Education Code section 67326 finds, among other things, that in the 2006-07 fiscal year, University of California and the California State University receive approximately six billion dollars (\$6,000,000,000) from the State General Fund each year; state agencies and departments entered into more than 2,500 contracts or contract amendments with the University of California and the California State University; that many of these contracts have similar provisions; that the drafting of many of the contracts takes six months to a year; that in many cases, the state pays for both sides of the contract negotiations; and that it would be more cost effective if the state and the universities would establish standardized "boilerplate" provisions that would apply to all contracts between them, unless the Parties agree to alternative terms as provided for in California Education Code section 67327; and

WHEREAS, California Education Code section 67327 provides, among other things, that the Department of General Services shall negotiate and establish a model contract with standard contract provisions with the University of California and with the California State University; and

WHEREAS, California Education Code section 67327 further provides, among other things, that the standard provisions in said model contract "...shall be used in contracts entered into between the University of California or the California State University and the state, unless both contracting parties mutually determine that a specified standard contract provision is inappropriate or inadequate for a specified contract"; and

WHEREAS, representatives of the Department of General Services, other state agencies and departments, the University of California, and the California State University have met typically monthly since January 2010 to negotiate the model contract;

NOW, THEREFORE, the above-referenced entities have reached agreement on the terms and conditions of the model contract, which are contained herein.

1. Effective on January 1, 2016 and as required by Education Code section 67325 et seq., the Department of General Services, The Regents of the University of California and The Trustees of the California State University (collectively, "Parties") have negotiated the model terms and conditions (~~UTC 446~~University Terms & Conditions/UTC), Attachment 3), for use in all new contracts, between State agencies and departments ("Agencies" or "Agency") and The Regents of the University of California ("UC") and The Trustees of the California State University ("CSU"¹). For the purposes of this Memorandum of Understanding ("MOU"), a new contract is defined as the award of funds, not previously budgeted or appropriated, by an Agency to the UC or CSU.
2. The Department of General Services ("DGS") will maintain the model contract terms, ~~(UTC 446)~~UTC, as Exhibit C on the Office of Legal Services, Standard Language website, (<http://www.dgs.ca.gov/Default.aspx?alias=www.dgs.ca.gov/ols>), <http://www.dgs.ca.gov/ols/Resources/ModelContractLanguageUniversities.aspx>

¹ For purposes of this MOU, CSU shall also include those recognized CSU auxiliary organizations listed as being in good standing under Section 42406 of the Code of Regulations that administer and receive extramural funds for research, training or services (Attachment 1) on behalf of the campus or the CSU system.

3. The model contract terms ([Attachment 3](#)), ~~UTC-116~~, will be incorporated (as Exhibit C) into the Model Agreement Template ([Attachment 2](#)), to be used as a template for all agreements subject to this MOU. The draft State- ~~and~~ University Proposal and Administration Manual (SUPAM), which may be used in administering projects under the model contract, will be finalized by the Parties within two years, or other mutually agreed upon time period, after execution of the MOU. The Parties may negotiate alternative terms from the Model Agreement Template or model contract terms as provided for in Education Code section 67327.
4. Representatives from DGS, UC Office of the President and the CSU Office of the Chancellor will work together in good faith to resolve implementation issues, ~~if any~~ including approval of exemptions on a case-by-case basis, in a timely manner as they arise.
5. In addition, representatives from DGS, UC Office of the President and the CSU Office of the Chancellor will meet annually, beginning one year from the effective date of this MOU to review the effectiveness of the model contract terms and to work together in good faith to identify and implement improvements to the model contract, if any. Prior to the annual meeting, the Parties will develop and conduct a standard survey of the Parties' respective constituents to identify those provisions, if any, that are considered inappropriate or inadequate.
6. In the event an Agency and UC or CSU mutually agree that a specified standard contract provision is inappropriate or inadequate for a specified contract pertaining to a specific project, the replacement provision, to be effective, must be in writing and executed by authorized representatives of the affected parties. The replacement provision will be applicable only to that specified contract and will be documented in Exhibit G of the agreement.
7. To be effective, any modifications to the model contract terms, ~~(UTC-116)~~, other than that noted in paragraph 6 above, must be made in writing and executed by authorized representatives of the Parties.
8. Consistent with Chapter 2 (commencing with Section 13988) of Part 4.5 of Division 3 of Title 2 of the Government Code, relating to intellectual property, funding agreements from a state agency to the Regents of the University of California and to the Trustees of the California State University shall be subject to the model contract provisions developed pursuant to Chapter 14.27 (commencing with Section 67325) of Part 40 of Division 5 of Title 3 of the Education Code. While Patent Rights provisions were developed accordingly, the model contract, ~~UTC-116~~, is silent on which one is the default. When applicable, one of these Patent Rights provisions ([Attachment 4](#)) will be incorporated in Exhibit G.
9. Agreements between a State agency and an authorized CSU auxiliary organization, shall incorporate the alternate provision, "4. Liability," set forth in ~~Attachment 1~~ Attachment 2, in Exhibit G as set forth in item #6 of this MOU. Authorized CSU Auxiliary Organizations are listed on [Attachment 1](#), which will be maintained and updated by CSU (and posted to the Office of Legal Services website) in the event that any organizations gain or lose status as an Authorized CSU Auxiliary Organization).
10. This MOU constitutes the entire contract and understanding between the parties with respect to the subject matter of this MOU and supersedes any previous or contemporaneous written or oral representations, statements, negotiations or contracts, if any. ~~UTC-116~~ The UTC, Exhibit C is incorporated by reference into this MOU as Attachment 3. To be effective, any modifications to this MOU must be made in writing and executed by authorized representatives of the Parties.

IN WITNESS WHEREOF, the Parties hereto have executed this MOU on the month, day and year specified below.

Anticipated Program Income is an estimate of gross income earned by the University that is directly generated by a supported activity and earned only as a result of the State funded project, and this fact is known by the University at time of proposal. Anticipated Program Income is an estimate of potential income and not a guarantee of income to support the project.

Page 2 of Exhibit B will only be incorporated in the Agreement when Program Income is anticipated and proposed.

Program Income is subject to Section 14.F of Exhibit C of this Agreement.

If known, provide source(s) of program income:

Exhibit B1

Budget Justification

The Budget Justification will include the following items in this format.

Personnel

Name. Starting with the Principal Investigator list the names of all known personnel who will be involved on the project for each year of the proposed project period. Include all collaborating investigators, individuals in training, technical and support staff or include as “to be determined” (TBD).

Role on Project. For all personnel by name, position, function, and a percentage level of effort (as appropriate), including “to-be-determined” positions.

Fringe Benefits.

In accordance with University policy, explain the costs included in the budgeted fringe benefit percentages used, which could include tuition/fee remission for qualifying personnel to the extent that such costs are provided for by University policy, to estimate the fringe benefit expenses on Exhibit B.

Travel

Itemize all travel requests separately by trip and justify in Exhibit B1, in accordance with University travel guidelines. Provide the purpose, destination, travelers (name or position/role), and duration of each trip. Include detail on airfare, lodging and mileage expenses, if applicable. Should the application include a request for travel outside of the state of California, justify the need for those out-of-state trips separately and completely.

Materials and Supplies

Itemize materials supplies in separate categories. Include a complete justification of the project’s need for these items. Theft sensitive equipment (under \$5,000) must be justified and tracked separately in accordance with State Contracting Manual Section 7.29.

Equipment

List each item of equipment (greater than or equal to \$5,000 with a useful life of more than one year) with amount requested separately and justify each.

Consultant Costs

Consultants are individuals/organizations who provide expert advisory or other services for brief or limited periods and do not provide a percentage of effort to the project or program. Consultants are not involved in the scientific or technical direction of the project as a whole. Provide the names and organizational affiliations of all consultants. Describe the services to be performed, and include the number of days of anticipated consultation, the expected rate of compensation, travel, per diem, and other related costs.

Subawardee (Consortium/Subrecipient) Costs

Each participating consortium organization must submit a separate detailed budget for every year in the project period in Exhibit B2 Subcontracts. Include a complete justification for the need for any subawardee listed in the application.

Other Direct Costs

Itemize any other expenses by category and cost. Specifically justify costs that may typically be treated as indirect costs. For example, if insurance, telecommunication, or IT costs are charged as a direct expense, explain reason and methodology.

Rent

If the scope of work will be performed in an off-campus facility rented from a third party for a specific project or projects, then rent may be charged as a direct expense to the award.

Indirect (F&A) Costs

Indirect costs are calculated in accordance with the University budgeted indirect cost rate in Exhibit B.
